## COUPON CALENDAR

No coupons become valid on Thursday, August 17.  
On August 21, butter coupons 74, 75, and tea-coffee coupon T-39 are valid.

## Mayor Antrobus Appointed to Hospital Com.

No Hope For Night Operator At Present Time; Medical Health Officer Submits Report.

Regular meeting of the council was held on Monday evening. Present Mayor Antrobus, Councillors Abousaffy, Cox, Lowe and Ramsay.

Council will recommend that Mothers' Allowance be granted Mrs. K. Johnson.

Sam Lee, laundryman, was present with a Chinese friend who spoke fluent English. It appears Sam has painted his premises and had the cesspool drained. He asked if the improvements met with the council's satisfaction. As the Medical Health Officer had submitted his report, which would be dealt with later in the meeting, Sam was informed that council would inform him of their decision by letter.

Enoch Williams, secretary pro tem of the Central hospital, thanked council for its endorsement of the Central hospital proposal.

Dr. E. Maxwell, supervisor of municipal hospitals, in a letter asked council to appoint a citizen to represent council on the temporary Central hospital committee. Mayor Antrobus was appointed for the position, but he carries no authority to bind council to any responsibility.

Supt. Lamb, of the CPR, in a letter to council, pointed out that it was impossible to install a night operator at the local depot at the present time. His letter was in answer to one sent him by council.

Tony Lycka was present to protest against paying tax arrears. He argued that he was prepared to pay current taxes, but not arrears, especially so when he was forced to pay \$20 monthly for the support of his children who had been taken from him. Council stated that he would have to pay tax arrears and suggested \$10 monthly till they were cleaned off. Lycka said No. Council said Yes. Lycka's house will be up for sale this year in an effort to secure tax arrears. Mayor Antrobus pointed out that Lycka had so far cost the ratepayers \$1,500, this amount having been paid for the upkeep of the Lycka children. Lycka remarked that this was not his fault. The discussion ended with Lycka remarking that they could sell his house and keep his children, too.

An itemized statement was received from town solicitor Bannan regarding the Lycka account. A cheque for \$146.59 was enclosed.

The water report revealed that the water was gradually getting better, but still slightly contaminated.

W. Martland submitted his application for the ash contract should it again become vacant.

The Department of Agriculture asked council to use its influence in securing workers to help gather in the harvest on the prairies.

Authority was given secretary to advertise three parcels of property in the Alberta Gazette and Coleman Journal.

F. Haratio is now residing in the Androsk home on Second street. Council will have the Wartime Rental Inspector inspect the place and set a fair rental charge for the property. Council will collect rent until the tax arrears have been cleaned off.

## Albert F. Short Seriously Ill at His Home Here

Mr. Albert F. Short, vice-president of the International and McGillivray Creek coal companies, is reported to be seriously ill at his home in Coleman. The first indication of his illness became evident but a few weeks ago, as a result of which a trip was made to Vancouver to regain his health. An operation was performed, but little hope is held out for his recovery. He is now resting quietly at his home in Coleman.

## FL W. J. IRVING ARRIVES HOME

Fl. W. J. Irving arrived home on Monday after serving overseas. Mrs. Irving, nee Gwen Dunlop, had travelled to Calgary to meet him from the east. Fl. Irving has had a number of thrilling experiences and at one time was forced down in a neutral country and interned. He and Mrs. Irving plan on taking up temporary residence at the coast, to which point Fl. Irving has been assigned.

## Fred H. Davis Purchases Empire Hotel

Jack McDonald Retires After Many Years in Business; Mr. Davis Plans on Managing Hotel Sept. 1st.

Jack McDonald, one of Coleman's prominent business men, has sold the Empire Hotel to Mr. Fred H. Davis, of Calgary. The deal was only made known this week.

Mr. McDonald has not made known his plans other than the fact that he would like to go on a good fishing trip and following that he and Mrs. McDonald plan on going to the coast for a good holiday.

Mr. Davis first came to Alberta in 1908. He homesteaded at Veteran, Alberta, and has resided at various times at Calgary, Lethbridge and Red Deer. His present address is Calgary. He plans on taking over personal management of the hotel late this month or on Sept. 1. He has had long experience with hotels, having been in the business many years.

## A.C. Bill Nimcan Killed In Action In France

Killed on July 25 According to Wire Received From Ottawa; Had Been Promising Young Hockey Player.

Another Coleman youth, the fifth, has paid the supreme sacrifice for his country, according to a wire received on Saturday morning by Mr. John Nimcan informing him that his son, Acting Corporal William Nimcan, had been killed in action on July 25.

Deceased was born in Winnipeg in 1919 and when only eight months old was brought to Coleman by his parents and had resided here till his enlistment in October of 1940 with the Edmonton Fusiliers. He had been an employee of J. S. D'Appolonia, contractor, and the International for brief periods prior to his enlisting in the army. He went overseas in March, 1943, and according to letter received by his father had been in France only three weeks.

Bill was widely known locally and was one of Coleman's promising young hockey players. He was a member of the local team that won the provincial "B" championship a few years ago and played with such youths as Boulton, Moores, Smith, Coccione, Jenkins and Krywolt, all of whom are now in uniform.

Surviving are his father; two sisters, Rose and Olga, and a brother, John, who is also in France. He had been engaged to Miss Rose Altomare, of Natal. His mother predeceased him in 1938.

The sympathy of Coleman friends is extended to the family in their severe loss.

## E. O. Duke, Social Credit, Re-Elected; Social Credit Party Sweeps Province

Wins Public Support For Third Successive Term; CCF Given Fairly Good Support Locally.

E. O. Duke, Social Credit candidate, was elected for the third successive time, to represent this constituency in the Alberta legislature.

In Coleman here are the results by polls:

	Duke	Irwin	Willms
C. Coleman	109	88	50
W. Coleman	111	100	90
F. Coleman	235	208	147

There were 1,138 votes cast in this election locally as against 1,402 in 1940.

Duke received 455 votes Tuesday as against 768 last election. Williams' popularity increased from 159 in 1940 to 287 this election. He gained at all three polls despite the fact that he once again polled the fewest votes in the three-cornered fight.

Irwin polled 396 votes in his first attempt under the CCF banner. In 1940 the third contestant

## Estimated 240 Persons Attended Boulton Reception

It is estimated that 240 persons from Coleman and Pass towns attended the reception held by Mr. and Mrs. Harry Boulton at their home on Thursday afternoon in honor of their son, Squadron Leader Foss Boulton, DFC.

A number of friends aided Mr. and Mrs. Boulton in serving refreshments, while Foss renewed old friendships with many friends.

Foss takes this opportunity of thanking all friends and acquaintances who were so kind to his parents during the months that he was first reported missing, then the trying ordeal in a German hospital and later in a prisoner of war camp. He also expresses his appreciation and sincere thanks for the warm welcome he has received from all his Coleman friends since his arrival home.

Mr. and Mrs. Boulton tender their thanks to the following for their much appreciated aid during the reception: Mrs. J. Glendenning, Mrs. Jack Richards, Mrs. R. Holmes, Mrs. J. Yates, Mrs. W. Milley, Mrs. J. A. McDonald, Mrs. G. Morgan, Mrs. Evan Morgan, Mrs. D. Pow, Mrs. W. S. Purvis, Mrs. J. J. McIntyre, Mrs. W. G. Garner, Mr. and Mrs. L. S. Richards, Dr. Maynes, Mrs. Gudmundson and Mrs. Wm. Fraser sr.

## RECEPTION FOR GLYN PARRY AND FOSS BOULTON

Mr. and Mrs. Robert Parry held a reception at their home on Saturday evening in honor of their son, LAC Glyn Parry, based at North Battleford, Sask., and now home on furlough, and Squadron Leader Foss Boulton.

Many friends called at the Parry home and a most enjoyable social evening was spent.

No one who faces full responsibility in life ever finds himself out of a job.

was Chris. Tompkins, who ran as Independent and polled 475 votes. According to these figures, therefore, Williams took votes which in the last election had been given partly to Social Credit and Independent.

Following are the results of the constituency as a whole:

	Duke	Irwin	Willms
Maycroft	20	7	2
Heath Creek	12	5	6
Olin Creek	16	7	9
Todd Creek	27	9	6

## George Derbyshire Retires From Employ of International

First Gained Employment With Company Upon Arrival in Coleman in 1907; Has Been in Charge of Wash House for Past 22 Years.

International company lost one of its faithful and trustworthy employees on Friday, July 28, when George Derbyshire retired from its employ.

He first arrived in Coleman in 1907 and gained immediate employment with the company, working as a miner for a number of years. Twenty-two years ago he was given the position as wash house attendant and in this capacity he has served faithfully.

Illness during the past year has prevented him from maintaining full employment, and on Friday, July 28, he severed relationship with the company and is now retired.

George saw action in the last war and for several years past has been the energetic president of the Coleman branch of the Canadian Legion. His interest in community activity and progress has not been dimmed by his sickness and he is to be seen on the street daily visiting his many friends. Now that he has retired his Coleman friends wish him many years of relaxation.

## Police Highway Patrols Active Nightly

Motorists Given Fair Warning to Have Lights in Good Condition.

Sgt. Mudiman, of the RCMP, has his highway patrol on the job nightly, flagging down all motorists who have only one light, no rear lights, failing to dim when approaching another car, etc.

Many motorists guilty of some offence have been stopped and told to repair the defect or advised to dim when a car approaches. Sergeant Mudiman warns all motorists to make sure that their cars are functioning properly, failure to do so makes them liable to prosecution.

## REAL ESTATE OR HOUSES FOR SALE

Tenders will be received by the Royal Canadian Mounted Police at Blairmore, for the Public Administrator, Calgary, up to Saturday, 19th August, 1944, for the purchase of Lot 20, Block 11, Plan "East Coleman 3387 A.E." and the shack thereon, owned by the estates of Peter Abramowicz and Veronica Zahorejko, deceased. The highest or any tender not necessarily accepted.

## R. A. Montalbetti Buys Main Street Property

Purchase Kellock Block; Will Move His Electrical Store Into New Premises at Later Date.

The Kellock Block, on main street, was purchased Tuesday afternoon by Mr. and Mrs. R. A. Montalbetti, proprietors of Modern Electric store.

The building will be renovated both inside and out by the new owners and the store premises, familiarly known as the Big Corner Store, will be made ready to accommodate the stock from the Modern Electric store.

It has been the aim of the new proprietors for some time to enlarge their electrical stock and the larger premises gives them the opportunity to do this.

## Anton Kahout Lost In Hills For Past Week

R.C.M.P. and Citizens Search Hills in Vicinity of York Creek; Over 100 Searchers on Sunday.

Anton Kahout, 70, a resident of West Coleman, has been lost in the heavily timbered area in the York Creek district since last Thursday morning and to date no trace has been found of him, despite many hours of searching by the RCMP, a famous RCMP dog from Taber and many local citizens. Grave fears are now held for his safety.

Mr. Kahout left his home at 7 a.m. to look for York Creek for the purpose of picking berries. He was alone and when he failed to return Thursday afternoon his family became worried and informed the RCMP that they believed he had become lost. The police immediately started a search Thursday evening, but to no avail.

The famous RCMP dog from Taber was brought to York Creek, but the trail proved too cold and the dog failed in its many attempts to trace a scent.

On Sunday it is reported that approximately 100 persons searched the hills all day in a vain attempt to find the old gentleman. Each day this week a patrol has maintained the search without success.

The miners will go out in a body the first day of this week, having been asked by their union executive to meet at the International wash house at 8 a.m.

...V...

The Chinese laundry must certainly be condemned and I have notified Sam Lee, the owner, not to attempt any improvements in regard to cesspools, i.e., as the premises must be closed down.

The creek bed through the town is another source of contamination. Many people have been throwing refuse into this and a menace to health is the result.

Near the Janostak property there has been a seepage from an outdoor toilet, and a cesspool. Added to this a further problem has been created in regard to the sewerage system from the Grand Union hotel. A pipe has broken and contaminated sewerage is running through the creek bed. This requires prompt action. I have already notified the Provincial Board of Health and requested a sanitary engineer to be sent down to inspect this sewerage system. There is no doubt it is inadequate to handle the demands of a building such as this and it will be necessary for the owners to make changes in compliance with Public Health regulations.

E. J. Liesemer.

## Curling Club Carnival On Sept. 23-25

Major Prizes Are Shetland Pony Plus Saddle and a \$100 War Bond; to Aid Building Fund.

Coleman Curling Club will sponsor a carnival on Saturday and Monday, Sept. 23 and 25. Proceeds will aid in the construction of the new arena at present being built at Flummerfelt Park.

The executive is trying out something new in the major prize field this carnival. A shetland pony, prize winner at the Didsbury fair this year, has been purchased along with saddle and bridle and has cost the executive \$200. The pony will be exhibited in all Pass towns and it should become a popular favorite with all Pass youngsters. L. S. Richards, who was placed in charge of the sale, states it is a beautifully marked pinto, and is quiet natured and well accustomed to children. Should someone win the pony who has no use for it, it is expected that before the draw is made some horse lover will have made a bid for the pony and his bid will be turned over to the winner. However, there will be more information on this point at a later date. The second prize is a \$100 bond.

Youths and young girls wishing to make an extra dollar for pocket money will have the chance of picking up either \$15, \$10 or \$5, as these are the special prizes to be awarded the three youngsters who sell the greatest number of tickets on the two main prizes. In addition, when the executive takes the pony out of town, the ticket sellers will be taken along and given a chance to sell additional tickets. Books of tickets can be secured from A. Balloch at The Journal of...

## M. H. O. Reports on Sanitary Conditions

Condemns Sam Lee Laundry; Asks That Restaurant Situation Be Discussed Fully.

Dr. E. J. Liesemer submitted his health report to council on Monday evening. As a result of the report council appointed a committee of Councillors Abousaffy, Ramsay and Cox to meet Dr. Liesemer and Provincial Sanitary Inspector D. B. Menzies, the latter to visit Coleman shortly, and visit all restaurants and the Sam Lee Laundry. The findings and recommendations of Dr. Menzies and Dr. Liesemer will then be discussed at a meeting of council and action taken.

Following is Dr. Liesemer's report.

July 14, 1944.

Secretary-Treasurer, Town of Coleman, Coleman, Alberta.

Herby I submit to you a report on Health and conditions during the month of June.

There were 6 cases of whooping cough and 1 of mumps, venereal disease (syphilis) 1 reported. This venereal disease case is at present under treatment.

The restaurant situation is far from satisfactory and probably should be discussed with the council in session.

The Chinese laundry must certainly be condemned and I have notified Sam Lee, the owner, not to attempt any improvements in regard to cesspools, i.e., as the premises must be closed down.

The creek bed through the town is another source of contamination. Many people have been throwing refuse into this and a menace to health is the result. Near the Janostak property there has been a seepage from an outdoor toilet, and a cesspool. Added to this a further problem has been created in regard to the sewerage system from the Grand Union hotel. A pipe has broken and contaminated sewerage is running through the creek bed. This requires prompt action. I have already notified the Provincial Board of Health and requested a sanitary engineer to be sent down to inspect this sewerage system. There is no doubt it is inadequate to handle the demands of a building such as this and it will be necessary for the owners to make changes in compliance with Public Health regulations.

## Adult Education

EDUCATION IS A SUBJECT OF WIDESPREAD interest here, and in it, as in many matters of public concern, the war has brought about a need for changes and improvements to meet the demands of present conditions. In this connection, events of the past four years have shown that there will be a need for greatly extended facilities for adult education when the armed services are demobilized, and the production of war materials ceases. The Dominion government has made provision for vocational re-training, and for educational opportunities for those whose studies were interrupted by the war, but educationalists foresee that there will be a need for additional facilities for instruction along the lines of citizenship, health, vocational guidance and other related subjects.

### Stress Need For Leaders

A recent report issued by the Canada and Newfoundland Education Association deals at some length with the subject of adult education and stresses the need for trained leaders for this work in the post-war period. It suggests that provincial departments of education and the extension departments of universities could assist greatly in training people for this work, and also in arranging courses for study groups. It further suggests that local school boards could be of service, for while the whole project would be co-ordinated in a national organization, each community would be required to deal with its own local requirements. Attention is drawn to the people's education movement in Britain which is supported by public funds, and to a similar organization in the United States, which is administered through the Office of Education.

### A Stimulus To Study Groups

Canada has been fortunate in having an organization which since 1935 has assisted in the formation of study groups throughout the Dominion. This organization is the Canadian Association of Adult Education, and its services have benefited many communities. It has provided a stimulus to adult education through publications, conferences, radio, provision for study and research, library services and many similar means. One of its best known projects is the National Farm Radio Forum which is directed and financed by the Association in co-operation with the Canadian Federation of Agriculture. Registered listening groups throughout the Dominion make up a weekly audience of 20,000 people, and over 16,000 packages of study material are distributed weekly among these groups. The report on education strongly recommends that the Adult Education Association be given extended and continued support in this field.

### Only One Thought

Manager Of Chain Store Wanted Help Very Badly

Arthur F. Wallace of Milton, Mass., who has been described as a "tall, dignified industrialist," will vouch for this one. On his last trip to Valatie, N.Y., where his mill is located, Wallace decided to prepare a chicken salad for his dinner.

As he entered the local chain store to do some shopping, he noticed a large sign hanging on the door: "Boy Wanted."

A clerk, who also happened to be the manager, approached and Wallace asked: "How much is the celery?"

"Eighteen dollars a week to start," the manager replied quickly.

## Price Control And Rationing Information

Q—Will my No. 3 ration book be of any further use to me, now that I have removed all the rationing sugar coupons?

A—Your No. 3 book still contains meat rationing coupons, which will be used if it becomes necessary to again ration meat.

Q—Will it be possible for farmers to transport harvest help in their trucks this fall?

A—Yes, a general permit has been issued allowing farmers to transport harvest help in their trucks from now until November 15. After November 15 the Board order prohibiting passengers in a truck, except in the cab while the vehicle is being operated to transport goods, again applies. The permit does not exempt any person from complying with any provincial or municipal law, bylaw or regulation affecting the transportation of persons by truck, nor does it carry an exemption from the 35-mile travel limit on trucks not carrying farm goods.

Q—I am planning to board and room in the local hotel in the town where I am employed. What are the arrangements for ration coupons?

A—Ration books of all persons residing in a hotel for two weeks or more must be surrendered to the hotelkeeper. At the end of the second week and of each succeeding two weeks the hotelkeeper must detach from each book one sugar coupon, one tea-coffee coupon, two butter coupons and one preserves coupon. The ration administration emphasizes that no evaporated milk coupons or "F" rationing sugar coupons are to be collected.

Q—Are shoe repairs controlled by the price ceiling?

A—Shoe repairs are under the price ceiling, and no repairer may ask more than he charged for the same service during the basic period September 15—October 11, 1941.

Please send your questions or your request for the pamphlet "Consumers' News" or the "Keep Book" (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## Vital Work

Invasion Role Was Given To British Women's Institutes

Members of British women's societies were able to fill many important jobs last month in connection with the invasion. The whole story of their gallant and untiring efforts cannot yet be told but some of the details have been released by British Information Services.

The National Federation of Women's Institutes played its part in the invasion by organizing and packing the preparation for transport for some 375,000,000 spares for every kind of equipment from radio sets to tanks. This was done in odd hours there and there, in homes, village halls, empty shops and barns. The controller of ordinance services has praised the immense amount done by these part time workers stating that they made a vital contribution towards getting invasion preparations completed in time.

At the same time, Women's Institute members have continued with their regular work of canning and making jam from this year's fruit crop. They are also preparing to help with the harvest since the need for volunteer land workers is greater than ever this year.

### ALLIED TEAMWORK

A working hands-across-the-sea policy is illustrated graphically in the official military marching song of the British Eighth Army. John Masfield, poet laureate of England, wrote the words, and Zoe Elliott, a Vermont Green Mountain boy, wrote the music.

The word "Bible" means book, and many people speak of it simply as "the Book".

## "I said good-bye to Constipation!"

"I've given up pills and harsh cathartics. I found my constipation was due to lack of 'bulk' in my diet—and I discovered that KELLLOG'S ALL-BRAN is a perfectly good way to get at the cause—and, help correct it!"

If this is your trouble, stop "dosing" with harsh purgatives—with their lack of lasting relief! Try eating a serving of ALL-BRAN daily, with milk, or sprinkled over other cereals. Or, eat several ALL-BRAN muffins daily! Drink plenty of water.

Get KELLLOG'S ALL-BRAN at your grocer's today—in either of 2 convenient sizes. Made by Kellogg's in London, Canada.

## Unlocking The North

Will Investigate The Resources Of Northern Canada

The Canadian Government is beginning its first real survey of the resources of the Northwest wilderness which lies in British Columbia, the Yukon and the Northwest Territories. Three government departments are combining to evaluate the resources of the territory which has been opened at last by the Alaska Highway and the Northwest Air Route.

Mineralogists will examine the mineral structure of the areas tributary to the highway and air route. Foresters will study the timber. The fisheries of the Great Slave and Great Bear Lakes and the Mackenzie river will be observed by fishery experts. Near White Horse an agricultural experiment station will be established to test the soil and the climate of the Northwest for the growing of crops.

This is a project of moment to Canada because of our large investments in the Northwest during the war.—Vancouver Sun.

## Here a CWAC There a CWAC

MUSIC—

According to recent reports from Winnipeg, the CWACs at Fort Osborne Barracks are now provided with after-dinner music by the District Depot Band. The band, directed by Warrant Officer Robert Sumner, has provided half hours for the Depot Company, No. 4, C.W.A.C. Administrative Unit and patients at Fort Osborne Military Hospital, also within the garrison. Concerts are given for Active Army soldiers as well, which keeps the band in frequent action.

Pte. Mary Moynihan of Regina, Sask. is one of the first CWACs to set foot in sunny Italy.

She is a talented young soprano who has been associated with the Army Show ever since her enlistment in 1942. Now with a unit in Italy, she recently wrote her father, Capt. F. E. Moynihan, adjutant of the Regina Garrison, describing some of her impressions of that land.

"There seem to be millions of fat little bimbos all over the place," she wrote. "Kids flock around for candy and it does my heart good to be able to pass it around and give them some pleasure."

Even the adults have a weakness for sweets, apparently, for in one rush for chocolate, a fat woman knocked down a little girl and bruised her back, she wrote. Mary went to the rescue. "I took her home," she said, "washed her (for she was very dirty), gave her a whole bar of chocolate for herself and a large glass of orange juice."

She was delighted to discover that the child's name was "Maria", too.

DUTY—

The average CWAC joins the service to replace a man, or because she wants to be a reinforcement for the Canadian Army. But Pte. Mercedes Lemay from Sherbrooke, Quebec, joined up to take the place of her sister who was discharged from the Canadian Women's Army Corps, recently. Mercedes expects to be a stenographer and claims that her biggest thrill to date was when an officer returned her first salute.

THRILLS—

Private Steve Constable, who came to live in Toronto several years ago from her native Niagara Falls, N.Y., had the greatest thrill of her life on a recent leave in New York City. In a crowded New York service canteen she was singled out by Mr. Richard Rogers, of the famous musical team of Rogers and Hart, who was entertaining service people that night. Mr. Rogers made certain that CWAC Private Constable saw his latest musical hit "Oklahoma," took her backstage to meet the casts of various Broadway hits, introduced her to Broadway stars, and then presented her with a complete recording of "Oklahoma." Upon her return to duty with the Royal Canadian Corps of Signals at Ottawa, Pte. Constable found that her barracks colleagues were waiting to hear about the "best leave ever".

THE SECRET OF SIKKIM CULTURE WAS BROUGHT TO EUROPE ABOUT 222 A.D. BY TWO NESTORIAN MONKS WHO SMUGGLED OUT OF CHINA A QUANTITY OF SIKKIM EGGS CONCEALED IN THE HOLLOW OF THEIR PILGRIM STAFFS.

### A Timely Suggestion

Do Not Question Returned Men About Their Experiences Overseas

When your son or daughter, father or uncle returns from serving overseas, it is best to let memories alone. Dr. George E. Simpson, Pennsylvania State College's sociology professor, has suggested.

The returning serviceman is not interested in what has been, but what lies ahead, the sociologist said. Instead of the "tell me all about it" attitude, families should persuade veterans to use their war experiences toward civilian activities. He should be fully informed on community, political, and technological developments.

Veterans want to forget, that is why, Dr. Simpson stresses, they should be taken into the communities' immediate problems instead of thrusting them into a "special" class because they have served in war.

### Wonderful Machine

Produces Heatless Heat Which Improves Quality Of Steel Bars

A new machine that produces "heatless heat" to improve the quality of steel bars for war production has been perfected in shops of the Ohio Crankshaft Co. at Cleveland, Ohio.

The new process applies high frequency electrical induction in a continuous operation hardening the steel bars and imparting physical characteristics to the steel heretofore impossible.

Parts used in the manufacture of industrial equipment and automobile tractor and tank engines are made from the bars processed by the new method of heating the steel.

John Boyd Dunlop, a Belfast veterinary surgeon, made the first hollow rubber tires more than half a century ago. They were used on his child's tricycle.

### Welcome Your Guests With A Full Cookie Jar

Keep the welcome mat dusted and the cookie jar filled to the brim, for summer's time of impromptu and last-minute snacks. You can save yourself a heap of cooking by stirring up a batch of delicious chocolate bran refrigerator cookies. Just keep them on ice until you want them. Pop them in the oven for a few minutes—and you'll have a snack that's hard to beat!

### CHOCOLATE BRAN REFRIGERATOR COOKIES

2 squares unsweetened chocolate ¼ cup milk  
¼ cup butter 1 teaspoon vanilla extract  
1½ cups sugar 2 cups flour  
1 egg 2 teaspoons baking powder  
1 cup All-Bran ¼ teaspoon salt

Melt chocolate over hot water. Blend butter and sugar thoroughly; beat until light and fluffy. Add egg and beat well. Stir in chocolate and All-Bran. Add milk and flavoring. Sift flour, baking powder, and salt, and work into first mixture, a small amount at a time. Knead and shape into roll about 1½ inches in diameter; wrap in waxed paper, covering ends so dough will not dry out. Store in refrigerator until firm. Cut into thin slices and bake on ungreased cookie sheet in moderately hot oven (400 degrees F.) about 12 minutes.

Yield: 4 dozen cookies (2 inches in diameter).

## PUT FORWARD A PLAN TO GIVE ASSISTANCE AND IMPROVE HOUSING CONDITIONS IN CANADA

OTTAWA.—Finance Minister Isley presented commons with the most extensive scheme of government assistance for house building ever put forward in Canada. He described it as "a measure of major importance, not only from the point of view of improving housing and living conditions, but also as part of the government's program to provide employment in the post-war period."

In a preliminary statement on the resolution prior to the introduction of the housing bill, he said the first part of the measure dealing with houses to be built by prospective home-owners provides for joint loans by the government and approved lending institutions as in the present national housing act.

The class of lending institution which may be employed is extended to include not only insurance, trust and loan companies as in the present act, but trustees of trust funds, building societies, credit unions and other co-operative societies.

The loans made are to be not less than 50 per cent. of the lending value and not more than 95 per cent. on the first \$2,000; plus 85 per cent. on the next \$2,000; plus 70 per cent. of the amount by which the lending value exceeds \$4,000.

On a \$2,500 house, the builder could borrow \$2,325; in a \$3,000 house, \$2,750.

The interest rate will not be more than 4½ per cent., made possible by

the government advancing its 25 per cent. share of the loan at three per cent., and the lending institution obtaining a return of five per cent. The term of the loan will be 20 years, but in special conditions it may be 30 years.

On a \$4,000 house a borrower could obtain \$3,600, putting up a down payment of \$400. The monthly charge, including principal repayment and interest would be \$22.61 on the 20-year basis or \$18.04 on the 30-year basis.

Under the same provisions the financing of co-operative housing projects can be effected. Loans made to a corporation or trustee representing tenant-owners are permitted on the same terms as to individual home owners.

The bill provides \$100,000,000 for the government's outlays on these types of loans, which would make possible total construction valued at \$400,000,000.

Rural loans are not made repayable in monthly instalments but on terms which will accord with probable income receipts. Provision is made for the consolidation of existing farm mortgages with new housing loans.

The minister said it was expected a considerable amount of rural housing improvements could be financed more conveniently through local banks under the farm improvement loans bill already passed.

### Reported Suicide

After writing a letter to Hitler in which he described the military situation as "hopelessly tragic" and demanding that a war now being fought for "personal ambition or party prestige" be brought to an end, Field Marshal Von Busch, above, committed suicide, according to a Polish underground report received in London. Von Busch was identified as one of the generals involved in the revolt against Hitler.

### FAST PLANE

WASHINGTON.—The Kingcobra, a faster and longer-range fighter plane, is replacing the P-39 Airacobra in action, the United States army reported. The Kingcobra has a speed of close to 400 miles an hour, surface ceiling of 35,000, four 50-calibre machine-guns and a 37-mm. cannon firing through the propeller hub.

Buy War Savings Stamps regularly.

### MEAT RATIONING

Not Likely To Be Resumed In Canada This Year

OTTAWA.—Unless some radical and unexpected change develops there is no likelihood of meat rationing being resumed in Canada during the remainder of this year, it was announced at Ottawa by the wartime prices and trade board.

The announcement stated that most of the conditions which brought suspension of meat rationing still exist.

Meat rationing, it said, was introduced for two reasons—to make available meat for overseas shipment and to ensure equitable distribution of the remainder in Canada.

A prices board spokesman said that both these objectives are now being achieved without rationing. Canada, he said, is now handling all the meat that rail and shipping facilities can handle.

### FORMS PROVIDED

For Postponement From Military Service For Farm Workers

OTTAWA.—National Selective Service officials said that arrangements are being made to have forms for postponement from military service for farm workers accompany call-up notices.

In the meantime, farm workers who receive orders to report may make application for postponement by writing the mobilization registrar and enclosing letters from two prominent citizens. In such cases when approval is given by the registrar the applicant will not be required to undergo medical examination.

Application for postponement should be made before a medical examination is taken.

## ALLIED OFFENSIVE IN FRANCE THREATENS ENEMY WITH A RAPID SWING TO THE EAST

LONDON.—Allied offensive in France threatens Germany with a sledge-hammer movement across central France reminiscent of the traditional Von Schlieffen plan employed by the Germans in making war in the west.

The Allies now are establishing a line running northeast-southwest across the base of the Cherbourg peninsula and into Brittany. As German resistance is eliminated in pockets and salients south of Caumont and east of Avranches, the front will be virtually straight.

Once this straightening is achieved, the front could be swung counter-clockwise through central-southern France, possibly forcing the Germans to reverse their front facing the English channel.

This in effect would be a reverse application of the Schlieffen plan—holding back the left flank and pivoting the right. For days the front has swung on the Caen hinge where a knockdown, drag-out fight continues in contrast with the fluid fighting to the southwest.

The fact that in the west an open flank now exists against which Allied armor can operate, taken together with the Russian crossing of the

Vistula, is seen by Lt.-Gen. H. G. Martin, London Daily Telegraph military analyst, as spelling ruin to Germany.

He quotes remarks by Count von Schlieffen, the famous German military strategist, made during war games of 1905 to test his plan, that if the Russians were to cross the Vistula, Oder and Elbe, it would be impossible for Germany to continue a war against France.

Martin sees two possibilities:

1. British forces "fighting at the less spectacular end of the great swing door which the Allies are pushing open in the face of the enemy, will turn leftwards through the Bocage to pin German forces by their backs against the Orne river."

2. The wider possibility that the United States 1st Army, having swept through Rennes until it has closed the exits from Brittany, also will swing leftwards in its turn and head for Paris.

The Germans' Brittany garrison is believed to comprise only two or three weak divisions and a comparatively small force could contain these while the Allied main body swung eastwards with its left flank anchored on the channel.

## ALLIED INFANTRY IN NORMANDY HAS BEEN DOING A FINE JOB IN PUSHING BACK GERMAN LINES

NORMANDY.—While the Boche continues to put his chips on queer Rube Goldbergish devices of war, our forces of the world's most mechanized army banks heaviest on the qualities of the resourceful tough-fisted fighting man.

Most of the frontline fighting in the Canadian sector during the past two weeks has been the infantryman's job.

When the Americans broke through west of St. Lo it was infantrymen who spearheaded the attack which has since been exploited with a great weight of armor and is so successful that more than 8,000 German prisoners are already in the bag.

Similarly with the British attack south of Caumont, where the infantry made the first contact and then armor followed up.

If you need confirmation of your opinion of the valor and the importance of the role played by the Canadian infantrymen, check almost any casualty list during these past eight weeks of the invasion.

The rifleman is still the fellow with the terrific resourcefulness and stamina who can infiltrate into enemy lines where armor might be stopped, who can reach dead ground which might be difficult even for our howitzers, and who can still move on all fours and search out the most

cleverly concealed and camouflaged enemy positions.

Contrasting this, the Germans are leaning more and more towards gadget war.

The Boche has been able to kill indiscriminately with the robot bombs in England but he hasn't been able to scare the Canadians very much so far with his limited experimental use of radio-operated tanks.

The Allies have been writing off German troops at the rate of more than 3,000 a day since D-day, including killed, wounded and prisoners.

This figure was estimated by Montgomery himself only 10 days ago, and the bag of the Americans in the west coupled with further casualties and prisoners on the British-Canadian front makes the total close to 200,000 for the eight weeks of the invasion.

At the same time it is recognized that the German often leaves his poorest troops holding the bag, that his crack regiments pull out first and leave soldiers from the occupied lands to fight rearguard actions, so that the prisoner haul often includes a high percentage of scuff.

This pattern may be intended to retain sufficient men of the elite professional type to handle Robot bomb lairs, and guide these crazy experimental tanks, but in the course of time it is possible that we will have nothing left to fight except some mad scientists and their army of Frankenstein robots.

In some ways we have reached the phase of the war where it becomes a battle of scientific genius, but our weapons depend on the human brain rather than the gyro compass with our weapons.

### TAKES TRIAL RUN

Underground Sources In Norway Report Having Seen Tirpitz

STOCKHOLM.—Norwegian underground sources report that the German battleship Tirpitz has been repaired and was observed on trial runs in Aftenfjord, in the northern-most part of Norway.

(The London Daily Mail quoted Scandinavian sources as saying that Allied planes had made further attacks on the Tirpitz on an unspecified date, but that results were "inconclusive" due to bad weather.)

Norwegian underground sources said the Tirpitz made only about several knots during the trial runs. But this would indicate the engines were repaired. The Tirpitz was believed still to have almost her normal complement.

### NORMANDY PRISONERS

LONDON.—War Secretary Sir James Grigg announced in the House of Commons that in the 30 days ending July 26, 50,000 prisoners of war were taken by the Allied armies in Normandy and Italy, including two generals and one admiral captured in Normandy.

2580

## Gives Bright Picture Of The War's Progress

LONDON.—Prime Minister Churchill said that he felt that the final end of the war against the Axis would come sooner, perhaps much sooner, than he once expected.

"On every battle front all over the world," he told the House of Commons, "the armies of Germany and Japan are recoiling. . . I am increasingly led to feel that the interval between the defeat of Hitler and the defeat of Japan will be shorter—perhaps much shorter—than I had at one time supposed."

He mentioned no dates. But, confident and cheerful, he sketched bright pictures of a swiftly approaching victory.

The prime minister disclosed that the Normandy invasion and the co-ordinated Red army offensive resulted from an agreement with Premier Stalin at Tehran.

Speaking of the Normandy fighting, he said the Canadians, with the British forces, had taken "our full share in fierce and prolonged conflicts."

"We have fulfilled the indispensable part which was assigned to us by the supreme commander and under him by Gen. Montgomery," he added. "Losses of the British and Canadian forces together were about equal to those of the larger United States forces in proportion to the relative strengths. . . It has been share and share alike in good fortune and bad all along the front."

The news from Normandy, he told a cheering House of Commons, is extremely good and "the first American Army advancing down the Atlantic coast might well be approaching the important railway centre of Rennes, about halfway across the base of the Brest peninsula."

Of Italy he said: "We may hope that operations of the utmost vigor will be continued by Gen. Alexander (Allied commander in chief) and his army throughout the summer and autumn."

But he added that while things were going well there, "it is the Russian army who have done the most work tearing the guts out of the German army."

"I salute Marshal Stalin, the great champion of a great country, and I firmly believe that our 20-year treaty with Russia will prove to be one of the most durable factors in preserving peace and good order and the progress of Europe."

"It might well be that the Russian successes have been somewhat aided by the strategy of Corporal Hitler. Even military idiots find it difficult not to see some faults in some of his actions."

### Britons In U.S. For Oil Conference

Lord Beaverbrook, lord privy seal of Great Britain, is shown on his arrival at the national airport to attend an oil conference between the United States and Great Britain. In group left to right are: Geoffrey Lloyd, parliamentary secretary to the ministry of fuel and power (British); Lord Beaverbrook, head of the delegation to the conference; Col. Frank H. Collins, commanding officer, Washington national airport army air base; Ralph Ashton, financial secretary to the British treasury; Sir Ronald Campbell, minister at the British embassy in Washington, and Ben Smith, British minister for supply in Washington.

### Monty And P.M. Hold Conference

During his second visit to the Normandy battle area, Prime Minister Winston Churchill (left), and General Sir Bernard L. Montgomery, held a conference, as shown here.

### In Memory Of Canadians Who Fell

Two little French children place wreaths on the graves of Canadians who fell to liberate France. The memorial service was held in a liberated French village.

## Out Sentinel Way

(A. Van Maaron)

Mr. and Mrs. Tommy Benson  
and son Laurence have returned to  
Kimberley after a pleasant visit  
with Mr. and Mrs. J. Stevenson.

Mrs. Gibson arrived at the  
Crows' Nest ranch to spend a short  
visit with her sister, Mrs. R. Bag-  
ley.

About 3 o'clock Saturday after-  
noon a tiny spark from a passing  
train set fire to the hills near Sen-  
tinel. The blaze was noticed im-  
mediately, whereupon all available  
men from Sentinel rushed to the  
scene and began beating out the  
fire with shovels. The section fore-  
man and a crew from Blairmore  
arrived shortly after being notified.  
A couple of hours of hard work  
and the fire was extinguished.

Miss Tess Bagley arrived home  
Saturday evening after spending a  
couple of weeks at Banff, Assini-  
boine and the Seebe Dude Ranch.  
Tess and her brother Bill rode to  
Assiniboine from Sentinel, taking  
a string of twelve horses with  
them. Bill will be guiding pack  
trips in and out of Assiniboine for  
the summer months.

Mr. and Mrs. Roy Wood, of  
Sentinel, motored to Fernie Sun-  
day. They returned that evening  
after an enjoyable day.

Mr. and Mrs. C. Dogtrom, Mr.  
and Mrs. J. Dogtrom and Mrs. J.  
Dogtrom jr., of Lethbridge, mo-  
tored to Sentinel Sunday, where  
they were the guests of Mr. and  
Mrs. J. Van Maaron. Miss Nellie  
Dogtrom returned to Lethbridge  
with them that evening after  
spending two weeks with her  
chum, Lorraine Van Maaron.

Miss Mary Hunter is back in  
Sentinel, after camping in Water-  
ton for two weeks.

Mrs. Knight returned to her  
home in Calgary, after spending  
two weeks in Sentinel with her  
friends, Mr. and Mrs. O. H. Bowen.

Mr. Roland Gissing arrived at  
the Crows' Nest Ranch Tuesday

evening. Mr. Gissing will spend a  
few days with the Bagleys.

## LOCAL NEWS

**ROOF REPAIRS**—We have abun-  
dant supplies of high grade cedar  
shingles.—Excel Builders' Supply  
Co.

Mr. and Mrs. Frank Aboussafy,  
Louise and Edmund, will leave at  
the week end on a vacation to  
Penticton, B.C.

Miss Margaret Allen, of Edmon-  
ton, daughter of Rev. D. K. Allen,  
formerly of Coleman, is visiting  
Miss Edith Haysom.

Mrs. George Kellock, of Midna-  
pore, and Mr. and Mrs. J. Kellock  
and son, of Calgary, are the guests  
of Mr. and Mrs. J. Kinnear sr.

Miss Lillian Ford has been spend-  
ing two weeks vacation at Van-  
couver, where she has been the  
guest of Mr. and Mrs. E. Hen-  
riette.

Mrs. T. Higginbotham has re-  
turned from South Slokan, B.C.,  
where she has been the guest of  
her daughter for the past two  
months.

Miss Florence McDonald, of Re-  
search Enterprise, Ltd., returned  
to Toronto last Friday, after a va-  
cation spent with her parents, Mr.  
and Mrs. J. A. McDonald.

Constable and Mrs. Ralph Sim-  
balist, nee Margaret Robert, an-  
nounce the birth of a son, Robert  
Ralph, on July 14th, at St. Mich-  
ael's hospital, Lethbridge.

## Theatre Notes

One of the better pictures comes  
to the Palace theatre this week  
end.

Girls we knew—girls we saw—  
behind desks and counters or sip-  
ping a soda at the corner store—  
whirled overnight into the heart  
of adventure on America's far-  
flung fighting fronts!  
It never happened before — but

it's one of the most dramatic  
things that has happened in this  
war. And Paramount has made the  
first motion picture about it.

If you've wondered what these  
girls think, how they feel, in their  
strange new world of fighting men  
—how they "take it" when the first  
danger of their lives passes close  
upon them, you will be fascinated  
by "So Proudly We Hail."

For here is all the ecstasy and  
anguish of new-found loves that  
must last but a little while—of  
partings that may know no reunion  
—of wedding nights in foxholes  
under a shell-swept sky.

Here is the courageous laughter  
of girls whose "undies" have be-  
come GI issues—who make over  
black silk nightgowns into even-  
ing dresses "to keep up their mor-  
ale"—of others who "collect" lieutenants  
until they're "landed" by a  
marine.

And here is the breathless daring  
of one lovely girl who gave herself  
up to a rapacious enemy, to avenge  
her dead lover by a ruse that will  
bring you bolt upright in your  
chair.

## The Churches

**ST. ALBAN'S CHURCH**  
(Anglican)

Rector: Rev. W. E. Brown.

Daily offices—

Mattins 9 a.m. Evensong 7.30 p.m.

Wednesday—

War Intercession 7.30 p.m.

Tenth Sunday after Trinity—

Holy Communion 8 a.m.

Evensong and Sermon 7 p.m.

Altar flowers August 6 given by

Mrs. Frank Graham and Mrs. Wal-  
ter Purvis "In loving memory of

Mrs. M. Edith Graham." Thanks,  
Rector. It was most appropriate  
on the thirty-ninth anniversary of

St. Alban's that we have flowers  
on the altar in memory of Mrs.  
Graham, who worked so enthusias-  
tically and untriflingly for the wel-  
fare of St. Alban's.

Mr. W. T. Pettifor, rector's war-  
den and lay reader, gave a very  
interesting address at the even-  
ing service on Sunday last.

"In these critical days, the faith  
of each must be strong or we shall  
fall into the Totalitarian Abyss or  
rush down the cliff into the sea  
of destruction. There are so many  
theories floating about. In the spir-  
itual and physical wars now raging  
there can be no neutrals. Each  
must decide between a free world  
and a slave world. The only hope  
is to uphold the principles of  
Christ—to drag his teaching out  
of the fog of stained-glass win-  
dows, petty squabbles and bring  
it into our daily lives. We shall  
not only pray for peace, but think  
of what it entails—a willingness  
to pay for it and a determination  
to maintain it."

## ST. PAUL'S UNITED CHURCH

Rev. G. A. Kettys, Pastor

Morning service at 11 a.m.

You are cordially invited to at-  
tend.

There will be no Sunday school  
in the United church at Coleman  
until further notice.

Sir Hugh Rigny, 74, who performed an operation credited with saving the life of King George V in 1928, died recently in a nursing home. Born in Dublin, he served as sergeant-surgeon to the King from 1928 to 1930.

SUNDAY SCHOOL LESSON  
AUGUST 13

## THE PRIEST IN THE LIFE OF ISRAEL

Golden text: For every high priest, being taken from among men, is appointed for men in things pertaining to God. Hebrews 5:1. Lesson: 1 Samuel 1:1-4:18. Devotional reading: Hebrews 5:1-9.

## Explanations and Comments

Two Wicked Priests, 1 Samuel 2:12-17. Hophni and Phinehas, Eli's sons, were base men; they knew not Jehovah. Definite charges are made against them: they were glutinous, avaricious, and irreverent. As priests they were entitled to an allotted portion of the most offered in sacrifice (Lev. 7:30-34), but they were not content therewith and demanded more. Moreover, they demanded that their claims be satisfied first. The blood and the fat were to be consumed on the altar immediately after slaughtering (Ex. 23:18), but they claimed their share before this had been done. And the sin of the young men was very great before Jehovah; for the men despised the offering of Jehovah, 1 Samuel 2:17.

Hophni and Phinehas were officially amongst the greatest men of their day. "They bore a holy name, they pronounced holy words, they were clothed in emblematic robes. Yet Hophni and Phinehas were men of Belial. Is there not a lesson here to ministers? It is possible for a man to have a pulp and to have no God, to have a Bible and no Holy Ghost, to employ his life in uttering the eloquence of truth when his life is gone astray from all that is true and beautiful and good." (Joseph Parker).

A Prophecy against Eli's House, 1 Samuel 2:27-36. There came a prophet, "a man of God," to Eli the high priest and began his prophecy with three statements which he made most emphatic by putting them in the form of questions. He reminded Eli of the time when God had revealed himself to Aaron his ancestor in Egypt; had chosen him out of all the tribes to be his priest; to burn incense on his altar, to wear an ephod before him; and had given him the offerings of the children of Israel made by fire. For an understanding of the last statement see Leviticus 2:1-3.

Wherefore kick ye at my sacrifice and at mine offering? "The figure is of a pampered and intractable animal: compare Dt. 22:15" and honest thy sons above me? Eli had dishonored God by allowing his wicked sons to offer sacrifices. Then came the prophecy. God had said that the priest's house should continue for ever, but now that should not be; for them that honor me I will honor, and they that despise me shall be lightly esteemed. Hophni and Phinehas should die in one day and a faithful priest should succeed to their office, one who would do "according to that which is in my heart and in my mind."

"The religious principle underlying the narrative is clear. There is no such thing as a 'divine right' of priests, no 'apostolic succession,' that cannot be broken. God calls a man to a task, to its duties and its privileges; the sons may be expected to carry on their fathers' work; but if the duties are neglected, the privileges are withdrawn." (The Abingdon Bible Commentary).

## Early Locomotive

Pictured above are the "Dorchester" first steam-engine to haul a train in Canada and one of the Canadian National Railways 6200 engines. This tiny engine had its first run on July 21st, 1836, between Lepperville and St. Johns, Quebec, now part of the St. Lawrence division of the Canadian National Railways. Hauling two small passenger cars it covered 16 miles in slightly less than two hours. The tractive effort of the "Dorchester" was approximately 1,475 pounds as compared with 17,000 pounds for the National's 6200 type engine, roughly, 41 times greater power. The National System's fleet of 2,577 engines hauled more than 80,400,000 tons of freight in a single year, most of which was war supplies and munitions for the armed forces.

## Tower Bridge

## London's Famous Structure Was Opened Fifty Years Ago

Fifty years ago, on June 30, Tower Bridge was opened by the Prince of Wales on behalf of the Queen, and it is recorded that was a picturesque and stately ceremony perfectly performed under the most favorable conditions.

London was proud of this engineering achievement, which was hailed as one of the structural triumphs of the age of steel. It was the largest bascule in the world, the next largest being the one at Copenhagen, which had a passage way of 50 feet 8 inches, compared with the 200 feet of Tower Bridge. The leaves or halves of the centre span of the bridge are each 115 feet long and cover between them a waterway 200 feet wide. "At the touch of a silver disc small enough to be formed into a lid of a loyng-cup," said a reporter at the opening ceremony, "they rose smoothly and noiselessly under the hand of the Prince of Wales."—London Times.

Bears are known to suffer from arthritis.

## Fish Royalty

## Saskatchewan Government Wants Alberta and Manitoba To Adopt Uniform Policy

Plans for the imposition of a royalty on all commercial fish had been discussed by members of the Saskatchewan government and would be presented for the approval of officials of the Alberta and Manitoba governments at a proposed inter-provincial conference in the fall, Hon. J. L. Phelps, minister of natural resources, announced.

"Though no definite arrangements have been made with the governments of Alberta and Manitoba, it is hoped that they will agree to the conference and, if possible, to the adoption of a uniform policy in regard to the fishing industry," Mr. Phelps said.

The proposed royalty would be levied only on commercial fish and monies from this source would be used to finance the recently begun survey of northern commercial fishing lakes and the inspection of commercial fish, to develop facilities for research and to assist in the maintenance and extension of fish hatcheries.

Mr. Phelps emphasized that the costs of royalties on fish would not be borne by the consumer but by the shipper or dealer.

"The proposed royalty on fish would be levied in the same manner as those now imposed on furs," he stated.

## Life On A Submarine

## Has A Strong Appeal For This Naval Officer From Manitoba

One of the few Canadian naval officers in the British submarine service, Lieut. Bob Fahrig, R.C.N.V.R., of Brandon, Man., has taken part in the sinking of two Japanese ships and today is one of the most enthusiastic men in the business.

"It's not an easy life by any means," he'll tell you, "but I wouldn't switch to anything else—and I've had tastes of them all."

## WAS WELL NAMED

Among those saved in an Anderson shelter recently when flying bombs hit a place in southern England were six members of a family named Anderson, including a woman of 90 and another of 64.

## Hat Makes A Difference

—Canadian Army Overseas Photo. Pte. H. Koebe, Winnipeg, found himself a new head dress when helping to clear the rubble from war blasted Carpiquet.

Water buffalo milk, pasteurized and sealed in glass bottles, is sold in Peiping, China.

## Cycling In Sweden

## Has Enjoyed An Unprecedented Boom Since The War Started

Sweden has the largest number of bicycles in the world in relation to its population. Recently published figures show that Sweden has passed both Denmark and Holland, which were previously the world's leading bicycle nations.

Since the middle of the 1830's, but especially during the war, cycling has enjoyed an unprecedented boom in Sweden. In 1936 for instance, the number of bicycles in Sweden amounted to about 1,500,000. In 1939 it had risen to 2,000,000, and at present there are 3,000,000 bicycles in the country. This means that 45 persons out of every 1,000, or roughly every second Swede, has his own bicycle. In Stockholm, with a population of 640,000 inhabitants, there are 425,000 bicycles.

The rapid development of cycling in recent years is, of course, partly due to the ban on private motoring as well as the curtailing of the public bus services, owing to the lack of rubber and lubricants. Another contributing factor, so far as the cities are concerned, is undoubtedly the rapid growth of the suburban districts. However, the factor which has contributed most of all to the development of cycling in Sweden is the ever increasing interest in sports and outdoor life among all strata of the Swedish people.

#### OUR COMPLETE SHORT STORY—

### Till Pay Day

By LARRY STERNIG

McClure Newspaper Syndicate

Martha's suburn head nodded over the bowl of shiny green peas. Just a few more peas to shell, tomatoes to prepare and then... The phone shrilled harshly and Marty jerked out of her pleasant semi-daze. "Tucker's residence," she yawned into the transmitter.

The voice that came over the wire carried a noticeable blend of capriciousness and anxiety. "Hello, kitten, this is your year-an-a-day husband; remember?"

"As if I could forget!" Marty remembered, too, the stacks of dishes she'd washed, the countless ash trays she'd emptied after last night's party. Then she thought of Don's good intentions which had fostered the somewhat costly celebration and her voice softened. "Is something wrong, Don? You're almost due home."

"Wrong? No, Oh, no! It's just that—well, Mr. Bertram is coming home with me. Tonight—" Marty heard a sound that might have been a gulp, "—for dinner."

"For dinner? But after last night he can't afford any dinner before pay day—at least not the kind the boss would expect."

"Oh, Mr. Bertram isn't the big boss. Just a clerk or something. We'll be along pretty soon."

Marty's temperature soared as she reckoned the expense of Don's surprise party the previous evening. Chicken chop suey dinners for sixteen from the town's best restaurant; dozens of drinks made of choice ingredients. With other items it had taken all their money. Yes, and a little they didn't have! Don had a bad—though admittedly diminishing—habit of borrowing. And now the party seemed destined to cost him a promotion.

The present manager of West End branch was retiring and it was no secret that Mr. Bertram was charged with appointing old man Luther's successor. Don's prospects for advancement were none too bright, being only a junior in the firm of Hilton, Inc.

"And now even that faint hope is going up in smoke," Marty sighed, helplessly shaking an already pilfered piggy bank.

If you suffer MONTHLY  
**FEMALE PAIN**  
You who suffer such pain with tired, nervous irritable bad feelings—due to functional monthly disturbances—should try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound means Nature. Thousands upon thousands have reported benefit. Follow label directions.

Often during the past year she had dreamed of inviting Don's superior to dinner. The menu would include soup, salad, steak smothered with mushrooms... Marty glanced at the single kettle on the stove and marched grimly into the dining room. Well, at least the anniversary bouquet made a nice centerpiece.

Don was a darling about buying her things she liked; the trouble was he carried that too far—the living room furniture, for instance. When his great-aunt had come through with an old but elegant elbow chair, Marty had been rash enough to express great delight in the antique. It was all the encouragement Don needed to buy a whole roomful of ornately carved dust catchers. The tragic part was that it had cost almost every dollar of his parents' generous wedding check. Marty defended Don's choice against friendly criticism, but now she foresaw little difficulty in telling him exactly what she really thought of his taste in furniture.

When Don and his guest arrived Marty wore her best dress. If her smile was merely a good imitation of her best it fooled even her husband. He managed to sneak into the kitchen for a few words before dinner. He sniffed expectantly. "Steak broiling, kitchen?"

Marty was very calm. "Steaks cost money. So do parties. Owing to the latter, the Tuckers are without funds until pay day." With a graceful gesture she lifted the cover off the solitary steaming kettle. "Thanks to our garden we needn't starve in the interim."

Don stared in disbelief. "Soup. Only soup?"

"Vegetable soup, crammed with vitamins. There's plenty of it. Besides, we're having egg sandwiches."

Don's glance shifted from the soup to the living room and back again. His voice was a despairing whisper. "You could have borrowed some money."

Marty proceeded to ladle into a silver tureen. "Borrowing is an art at which I am most inept."

"Oh, nuts! We'll simply have to explain..."

"Not!" Marty's calm forsook her. "Don't you dare explain or apologize! We're going to act as if this were the perfectly normal way of feeding a special guest if it... if it costs you your job!"

"It will," Don predicted gloomily. Dinner over, Mr. Bertram settled himself in one of the ancient chairs and accepted a cigar. "Nothing like a smoke to top off a fine meal, I always say. You're a great cook, Mrs. Tucker. Finest soup I've tasted in years... you know, Tucker," he went on, "this visit to your home gives me a new insight into your character. Frankly, until tonight I thought you were a bit unstable, given to ostentation."

Marty avoided her husband's embarrassed glance. She was anxious to hear Mr. Bertram's next words.

"The simple way you live is in keeping with your modest salary. Now take this room," he said, beaming. "You don't find many young people satisfied with hand-me-down furniture until they can afford modern stuff of their own." Unaware of Don's purplish tinge he continued: "I like to see people do with what they have. Don't buy except for cash! That's Mr. Hilton's motto and I'm certain he'll approve of you as the new West End manager."

While Don was alternately kissing his pretty young wife and vowing to live within his newly enlarged income, Mr. Bertram made his way without delay to his favorite restaurant.

"Make it a thick steak, Nick," he ordered. "And say, put it on the cuff till pay day, will you?"

#### Valuable Contracts

Britain Hopes To Buy Large Amount Of Canadian Timber

Trade department officials at Ottawa said that Britain hopes to buy timber valued at \$140,000,000 from individual Canadian shippers during two years after the end of the war in Europe under contracts soon to be negotiated.

Commenting on a London announcement that arrangements for the supply of "considerable" quantities of Canadian timber have been completed, a spokesman said Britain would purchase approximately 1,200,000,000 board feet of timber during each of the two years. That would work out to \$70,000,000 worth of timber each year.

Bulk of the timber, he said, would come from the west coast but there also would be a considerable portion from eastern Canada.

The mountainous terrain between India and Burma is so difficult there never has been any railroad, sea transport proving cheaper and quicker.

#### Happy Captive

There is little of the 'give me liberty or give me death' spirit about this young German soldier, who obviously is tickled to death to be a prisoner and out of the war. He was taken by the British near Caen and hasn't stopped smiling since his capture.

#### Aircraft Production

Mosquito Record Here Is Praised In Britain

British praise for Canada's Mosquito aircraft production is given in an article by Kenneth R. Wilson, Ottawa correspondent of Financial Post, Toronto. The writer recently returned from the United Kingdom after a six weeks' tour with a group of Canadian editors, at the invitation of the British Ministry of Information. He talked to officials of de Havilland Aircraft, the Canadian company which handles Mosquito manufacture in this continent, Mr. Wilson writes:

"Despite the handicap of 3,000 miles separation from the plant where the first Mosquitos were produced, the Canadian plant got into production more rapidly than a comparable operation in the U.K. which had all the original company's experience to draw from near at hand."

Canadian Mosquitos, in the primary and component production of which thousands of aircraft workers throughout the Dominion are engaged, are flown in ever increasing numbers from Canada to European battlefronts. Recently two of them broke all existing non-stop trans-Atlantic flight record. Crossing from a point in Labrador to Northern Ireland, one made it in six hours 46 minutes, and the other in seven hours nine minutes. The faster time was two hours and 10 minutes better than the previous record by an R.A.F. Liberator. Distance was 2,220 statute miles.

#### Paved The Way

First Ships To Enter Cherbourg Were British Minesweepers

The first two ships to enter the harbour of Cherbourg were two British minesweepers. These two modest little ships took on a task that for sheer courage, can hardly be surpassed. Commodore W. A. Sullivan, head of the U.S. Naval Captured Ports Group, estimated that the number of mines laid inside Cherbourg Harbour ran into thousands. Until they had been cleaned up the salvage ships could not get to work on the wreck-blocked harbour. Hardly less courageous are the 38 British Navy divers who joined in the hazardous work, after the minesweepers had done theirs.

Universal disarmament was proposed more than 200 years ago by Jeremy Bentham. British jurist, as a means toward world peace.

... he is often out of stock—because a large portion of Burgess production is going to the Armed Forces and essential War Industries.

### Post-War And The Farmer

THE REQUIREMENTS FOR THE FARM PLANT AND EQUIPMENT AFTER THE WAR

By Evan A. Hardy, Professor of Agricultural Engineering, University of Saskatchewan.

(Note—This is the second of a series of comments by well-known authorities, writing expressly for the Weekly Press of Western Canada.)

A study of farm plants in Western Canada which includes improvements on farm land such as buildings and attached equipment, indicates that before the war, due to drought and poor crops, resulting in a shortage of money, and since the war, due to a shortage of labor and material, the farm buildings are considerably below the average standard which is anticipated for the post-war farm. Many of the buildings are of modern design and are suitable for power and mixed farming, but need considerable maintenance and painting which will amount to from 10% to 25% of their original value to put them in good state of repair. A larger number of buildings are either temporary in nature or completely unsuitable for the type of farming being conducted so that it is necessary for them to be torn down and rebuilt to produce most efficient type of buildings for the farm.

The maintenance and rebuilding of farm buildings in Western Canada will amount to as much as half of the original cost of the buildings at the present time. This condition has resulted from a long period of drought and inability to make annual repairs and maintenance and the war years where labor and material shortage has made a major maintenance program impossible. It has been estimated by the Sub-Committee of the Advisory Council on Construction that the rebuilding and maintenance program would involve an expenditure of about one-quarter billion dollars in the course of the next ten years after the war. If the farmer of Western Canada is to be able to make the necessary maintenance and improvement of his plant it is going to be necessary to have a large amount of money available. A sinking fund for maintenance and rebuilding of farm buildings should be set up in the form of some tangible savings, so that after the war the program of reconstruction will have the advantage of because of lack of sufficient funds.

The study of the farm plant also indicated a very small percentage of the farmers of Western Canada have the advantage of electricity on the farm. While there have been many small private farm plants of 20 to 30 horsepower, the 110 volt rural electrification is the most satisfactory type due to the fact that motors of adequate size for practical repairs can be installed and used. With 32 and 6 volt units, the use is definitely limited to household conveniences and water systems. The study of rural electrification in Western Canada indicates that the cost will be high and in many instances will be cut of proportion to the revenue bearing utility of the convenience and that it will only be available in such areas where the individuals are able to pay more for the advantages. Consequently, if the standard of living is to be raised by the installation of adequate rural electrification, considerable sinking funds will need to be established in order to pay for the installation of rural electrification. In the ordinary run of events, money for this equipment is not available unless plans are made for the future to save for rural electrification.

With regard to farm machinery, while the 1944 crop has been put in good shape and the machinery and equipment will take off the 1944 crop, there has accumulated a large backlog in good equipment which will be necessary to take up as soon as the war is over in order to bring the standard of the farm power unit into line with the standard of the 1940's.

It has been estimated by the Farm Management Department of the University of Saskatchewan that the number of farms with tractors increased from 75,000 in 1936 to 102,000 in 1941; those with combines increased from 9,500 in 1936 to 17,200 in 1941. This means an average yearly increase of 5,400 new tractor farmers and 1,560 new combine farmers. For the remaining war period and at least a short post-war period, the substitution of tractors and combines, if allowed, will probably go on at an rapid rate. A pace that in 1936 to 1941. Assuming even reasonable prosperity up to 1950, it might average this for the entire ten years from 1941 to 1950. With about 300,000 farms for the three western provinces, there are many farms still without tractors and combines on which economical substitution can be made. This suggests that it may be necessary to add perhaps 4,000 to 5,000 tractors per year and about 2,000 combines per year to the normal number of tractors and combines purchased annually by the farmers of Western Canada. Tractors and combines are probably the larger items of new equipment which is required. There is, however, much tillage machinery and much haying machinery which is on the verge of replacement and will be replaced as soon as the machines are available during and after the war.

Also, a large number of machines have come to a point where major

### "Snacks" EASY TO MAKE... DELICIOUS TO EAT

**LIVERWURST SPREAD**

1/4 pound liverwurst  
2 teaspoons minced onion  
1 tablespoon chopped green pepper  
2 teaspoons horseradish  
1 tablespoon mayonnaise  
Salt and pepper  
Mix all ingredients and season.

**SOYA SPREAD**

1 cup prepared soya spread  
1/4 cup finely chopped celery  
1 teaspoon lemon juice  
Mayonnaise and salt to taste  
Combine all ingredients and mix.

Fill small dishes with these tempting spreads and place on a large tray with plenty of Christie's Premium Soda Crackers. Let each guest spread his own. And remember, these same crisp, flaky Christie's Premium Soda Crackers add extra goodness to soups and salads. Always keep a package or two on hand.

**Christie's Premium Soda Crackers**

**Christie's Biscuits**

There's a suitable dish for every occasion.

#### The British System

American Paper Says It Is Needed For The United States

If we had a Parliamentary system, the executive and legislative branches and all appointees would be merged into a single unit and be compelled to accept responsibility overnight for any blunder. This does not necessarily mean in actual practice a series of elections. It means that the mere threat of an election to test power could force a change in policy or in personnel. This has worked in the British Commonwealth of Nations, and it can work successfully for us because it is true democracy to give the people an instantaneous check on their rulers.

The Canadian Parliamentary system is what the United States should adopt. Then we could avoid the necessity of holding elections in the midst of some national crisis where continuity of administration might be imperative. We could acquire also a new sense of responsibility in the relations of the executive and the legislative branches of the government. Woodrow Wilson foresaw this need as far back as the 1880's and advocated it again as president-elect in February, 1913, in a historic letter to Congress on the subject of Presidential tenure—New York Sun.

#### This Week's Pattern

By ANNE ADAMS

Clever... This Pattern 4848. How few pieces, how easy to sew! The panels give wonderfully stunning lines. Use gay cotton or rayon.

Pattern 4848 is available in women's sizes: 34, 36, 38, 40, 42, 44, 46, 48 and 50. Sizes 36 takes 4 yards 35-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

The word snood was pronounced "snowed" by the Saxons, called "snate" by the Ancient Irish and is said to be strictly for unmarried women in Scotland.

#### A Valued Souvenir

Toronto Boy Has Received Shoulder Patch From General Eisenhower

A shoulder patch worn by General Dwight D. Eisenhower in North Africa is a treasured possession of Peter J. Gordon, aged 12, of Glencastle street, Toronto. The general sent it to Peter himself, as well as a letter from Supreme Headquarters Allied Expeditionary Force, Office of the Supreme Commander.

"I wrote him a letter telling about my brother John who's with the American army in a special service force," said Peter. "I asked him to send me a souvenir—and this is certainly a worthwhile one. I wished him the best of luck."

The letter reads: "Dear Peter: Thank you for your letter and good wishes. You must indeed be very proud of your brother who is with the American army. I shall be delighted to comply with your request and am enclosing a shoulder patch I wore in the North African campaign. Sincerely, Dwight D. Eisenhower."
